Introduction

This report is confidential and is intended to provide you with feedback on your results.

The test is designed to assess areas of critical importance for success in the role of a Legal Administrator. The competencies assessed are defined below.

How To Use This Report

This report provides you with feedback from the Legal Administrator SJT. It contains 'behavioural interpretation' that you can use to help you understand how you have performed on the exercise and 'development opportunities' to inform your development priorities, should you wish to improve your skills in specific areas.

Behavioural Interpretation

For each competency measured by the Legal Administrator SJT, an interpretation (four bullet points) has been provided to help you better understand the decisions you made on the exercise. Not every bullet point may apply equally to you, but you should consider them all, at least initially, and then decide which are most relevant for you.

Development Opportunities

You have also been provided with some ideas to help improve the competencies. The suggestions are intended to support you in your career progression, so working through these suggestions and identifying your own ideas for improving your skills should help you create a relevant development plan. When creating your development plan, it is best to set SMART Goals:

- **S = Specific:** Clearly defined and unambiguous
- **M = Measurable:** Contains specific criteria that you can use to measure your progress and goal accomplishment
- **A = Achievable:** Attainable in the timeframe you have set yourself and not impossible to achieve
- **R = Relevant:** Relevant to your goal, career or what you want to achieve
- **T = Time-bound:** Has a clear start and end date

Can I complete my goal in the time I have available? · How confident am I that I can achieve my goal? · What support will I need to achieve my goal?

R

Why is this goal important to me? · How does this goal relate to my overall success? · What is especially meaningful about my goal?
